

PROFESSIONAL SPECIFICATION | INDICATIVE TECHNICAL DATA

Grey Vein Limestone

Natural-stone reference selected by Marbre Import for architectural, interior and bespoke fabrication projects. Colour, veining and technical performance must be confirmed against the actual lot offered.

STONE FAMILY	Natural limestone
ORIGIN / QUARRY AREA	Fujian, China
APPEARANCE	Light-grey background with fine, near-parallel veining reminiscent of timber grain
FORMATS AND FINISHES	Tiles, slabs and made-to-measure pieces; honed or polished subject to the lot
RECOMMENDED APPLICATIONS	Interior floors, wall cladding, bathrooms, reception areas, retail environments and bespoke details
EXTERIOR USE	Subject to lot testing, finish, fixing system, climate and project-specific approval

Indicative technical properties

Bulk density	Typical limestone range; confirm with the selected lot
Water absorption	To be confirmed for the selected lot and finish
Compressive strength	To be confirmed by the applicable lot test report
Flexural strength	To be confirmed by the applicable lot test report
Freeze-thaw / exterior use	Project-specific testing and approval required
Slip resistance	Specify and verify according to finish and intended use

SPECIFICATION NOTES

Approve the actual lot, finish, thickness, dimensions and vein layout before ordering. Performance ranges are indicative and may vary by quarry, batch and test method. Confirm suitability for exterior, wet-area, kitchen, façade or high-traffic use with the project team.

NON-CONTRACTUAL DOCUMENT - Natural variation is inherent to stone. Values, colour, movement and availability must be confirmed for the selected lot.
