

NATURAL MARBLE | GRIGIO CARNICO | ITALY

Grigio Carnico Marble

Italian grey to dark grey marble with white and silver veining. An expressive stone for feature walls, fireplaces, bathrooms, floors and bespoke furniture.

ORIGIN

Paluzza / Timau, Italy

FAMILY

Natural marble

APPEARANCE

Grey, white veins

USE

Premium interiors

Specification guidance

- Plan large pieces around the veining and approve joint alignment.
- Select the actual lot: colour, pattern, finish and orientation.
- Confirm thickness, reinforcement and installation for the project.
- Outdoor use requires assessment; the freezing result alone is insufficient.

Formats and finishes

Formats: slabs, tiles and bespoke cut-to-size pieces.
Finishes: polished, honed; other finishes on request.

Indicative technical data

Density	2,690 kg/m³
Water absorption	0.06%
Compressive strength	124 MPa
Compression after freezing	133 MPa
Flexural strength	13.8 MPa
